## EDUCATION

**SRM Institute of Science and Technology**  
B.Tech in Computer Science and Engineering

Chennai, Tamil Nadu  
Sept 2022 – May 2026

## EXPERIENCE

**Software Engineer Intern** | Kotlin, Spring, PostgreSQL  
Headout

May 2025 – Present  
Bangalore, India

- Shipped **Creator Monetary Campaigns** end to end, enabling unique campaign links and wallet credits; launched with **17 creators** and drove **2,089 signups**, **1,442 app download clicks**, and **\$2,124 GBV**.
- Delivered the **Opportunities Dashboard** for campaign creation, review, and approvals; launched with **3 campaigns** and **200+ applications**, and enabled the team to manage partnership flows faster.
- Built **partner.headout.com/docs** on **Mintlify** with an in-doc playground, AI assistant, and guides, handling **70–80%** of early integration doubts for partners.

**SDE Intern** | Node.js, TypeScript, React Native, AWS CDK, Serverless  
Emendo

April 2024 – May 2025  
Remote, US

- Built a **construction-management app** in **React Native** that automated **material tracking and ledger updates** for contractors.
- Developed a **real-time receipt and document extraction service** for downstream processing.

**App Development Intern** | Flutter, Dart, WiFi Modules, ESP  
Climec Labs

Sep 2023 – Dec 2023  
Chennai, Tamil Nadu

- Built a **cross-platform IoT app** for air purifiers to **control devices, fan speed, and air quality** in real time.
- Added **dashboards** to visualize **air quality metrics** and device performance.

## PROJECTS

**TrackMyTransits** | React Native, Expo, Supabase, Tamagui

[Github](#)

- Built a **role-based transit tracking app** for admin, receptionist, and worker workflows with routed dashboards.
- Implemented **transit detail views, inventory tracking, CSV export**, and **Supabase auth** with persisted sessions.

**Loop** | SwiftUI, SwiftData, Spotify iOS SDK

[Github](#)

- Built an **iOS music app** for trimmed Spotify clips with custom start and end points stored in **SwiftData**.
- Implemented **auto-advance**, a **now playing bar**, and **URI/link import** for a playlist-style flow.

**KzCMS** | Node.js, TypeScript, AWS S3

[Github](#)

- Co-led CMS development**, adding **role-based access control** and **real-time publishing** for the club site.
- Integrated **AWS S3** for scalable **digital asset management** and media sharing.

**TinyBits** | GoLang, PostgreSQL, Redis, Remix, TypeScript

[Github](#)

- Built a **URL shortener in Go** and later turned it into a **full-stack Remix app**.
- Used **Redis caching** and **PostgreSQL** without an ORM to keep the stack lightweight.

## POSITION OF RESPONSIBILITY

**Associate Technical Lead** | SRMKZILLA

Oct 2022 – April 2024

Led tech projects, guided a team of 20+ members, and organized workshops to support the club's technical growth.

**Associate Technical Lead** | Google Developers Students Clubs SRM

April 2023 – July 2024

Led a team to develop an internal event management app, streamlining event organization and participant tracking.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, Kotlin, Dart, Python, Go, SQL, C and C++

**Frameworks:** React, Next.js, Flutter, React Native

**Development and Cloud:** Node.js, AWS CDK and AWS SDK (S3, EC2, SQS, SNS, RDS), Docker, Linux Servers, Nginx

**Databases:** MongoDB, PostgreSQL, MySQL, Supabase, Firebase

**Developer Tools:** Git, VS Code, Xcode

## HACKATHONS AND PRIZES

**Innervet, AIT, Pune** – *Educative.AI*, an *EduTech* product, placed us in the top five in India at the finals.

**Hacknova, Newton School Coding Club** – Secured 2nd Position winning a prize pool of Rs. 10,000
